

## Personalized Medicine Practice – Highlights & Details

### Membership Advantages

#### Personalized Wellness Program

We focus on prevention and wellness—not just caring for you when you’re ill. True wellness includes physical, emotional, and nutritional well-being. Your membership includes our annual wellness program, designed to be the cornerstone of your personalized health plan. Together, we’ll use advanced screenings and ongoing guidance to assess and support the following:

- Heart health and cholesterol
- Diabetes
- Respiratory health
- Sleep patterns
- Women’s health
- Hormone optimization
- Comprehensive risk factor analysis
- Nutrition and fitness
- Vitamins and supplements
- Health coaching and wellness support
- Weight management
- Emotional well-being
- Sexual health

All of these services can be performed right here in our office and are included as part of your annual membership. We’ll review your results together, discuss your goals, and create a personalized plan to support your long-term health and vitality.

#### Direct access and communication

You’ll have direct phone access to your provider and our team during office hours. Calls will be answered promptly, and every effort will be made to connect you with your provider as quickly as possible.

#### After-hours access

You’ll receive a direct cell phone number to reach your provider for urgent needs outside of office hours.

#### Same-day or next-business-day appointments

Appointments are reserved exclusively for members, ensuring that when you need care, you’re seen promptly—even for non-urgent concerns.

#### Minimal waiting and longer visits

With a smaller patient panel, we dedicate the time you deserve. Annual exams are typically 60 minutes or more; all other visits are generally 30 minutes or longer.

#### Complimentary administrative and remote care services

Members receive prior authorizations and completion of forms or letters at no charge, along with the flexibility to obtain medical guidance by phone when an in person exam isn’t needed.

#### Complimentary membership for dependent children

Dependent children ages 18–26 of an enrolled parent may participate at no additional cost. Their annual exam and office visits will be billed separately.

## Care for visiting family and friends

If your loved ones become ill while visiting Atlanta, we'll gladly assist them at our standard office visit fee.

## End-of-life and advance care planning

When needed, we'll provide compassionate counseling and support for end-of-life planning, including discussions about care preferences and documentation.

## Second-opinion chart review

For patients with complex or chronic conditions, we may consult a trusted colleague for an additional medical perspective when appropriate.

## Our Staff

Our team is an essential part of your care experience. Each member brings expertise, compassion, and a shared commitment to your well-being. We work together to coordinate your care and assist with navigating the medical community when needed. Whether it's helping arrange referrals, following up on test results, or communicating with specialists, we're here to ensure your care is seamless and personalized.

## Insurance Information

### Commercial Insurance Patients

We participate with many insurance plans and will continue to submit claims for all covered services. Office visit charges are not included in your annual membership fee. Additional charges for services outside of your annual wellness exam (non-routine testing, procedures, injections, or immunizations may apply). Insurance-covered services are not included in your annual fee.

If we are an out-of-network provider for your plan, we will still assist in coordinating your care. Whenever possible, we'll refer you to in-network specialists, facilities, and diagnostic centers to ensure continuity and minimize cost.

Some insurance plans include annual wellness benefits. If your plan covers a wellness exam, you may be eligible for a discount on your annual membership fee.

### Traditional Medicare Patients

All Medicare-covered services will continue to be billed directly to Medicare on your behalf. Your annual membership fee covers only non-covered services and will not be billed to, paid for, or reimbursed by Medicare.

## Annual Membership Fee

Memberships range from **\$1,800–\$2,200** annually, based on age group. Couple memberships are available at a preferred rate, offering an annual savings of \$400. *Please see the Patient Agreement for full rate details.*

## Ready To Enroll?

We are so excited to have you join us! Please return your completed Membership Agreement with preferred payment method to any of our care team.

## Still have Questions?

Our team will be happy to assist you with any questions regarding your membership or enrollment process. You can reach us at 770-442-1111 or message us anytime through your patient portal.
