Philip G. Huff, MD
Tiffany E. Madison, MD
Robert Young, PA-C
Andrea Castro, PA-C

Sandy Gilliard
Practice Manager

Charity Q. Boulton, CMPE
Chief Administrative Officer

October 27, 2025

It is with a mixture of gratitude, sadness, and excitement that I announce my retirement, beginning **January 31, 2026**. I am happy to say I am in good health, and after nearly 40 years in private practice, I feel the time is right to begin the next chapter of my life.

Working at North Fulton Internal Medicine Group has been my only private practice home, and I owe much of my happiness and longevity to the remarkable people I have worked alongside—especially those I work with today. They are truly exceptional.

An equal measure of gratitude goes to you, my patients. Over these many years, it has been an honor and privilege to care for you and your families. Through our shared experiences in both traditional and concierge medicine, we have come to know one another not only through exams and discussions, but also through stories, laughter, tears, and even a few hugs. I hope that my staff and I have been able to solve most of your medical problems and, just as importantly, provide reassurance when you needed it.

The good news is that I leave behind an excellent team of medical providers and support staff you can continue to count on. Dr. Tiffany Madison and our experienced physician assistants, Andrea Castro and Bob Young, are transitioning to a Personalized Medicine Practice model beginning January 1, 2026, and will carry forward the tradition of compassionate, patient-centered care that has defined this office since I arrived here in 1986. If you have not yet had the opportunity to meet them, I wholeheartedly encourage you to do so the next time you are in the office to see me or you may schedule a “meet and greet” at your convenience.

We want this transition to be as seamless as possible. For those currently enrolled, your 12-month membership will be fully honored, ensuring uninterrupted care and an opportunity to establish a relationship with one of our excellent providers. For patients who choose to transition their care elsewhere before the end of your membership year, we will provide a prorated refund if your annual physical has not yet been completed, as outlined in your membership agreement.

I know there may be questions and a range of emotions in the months ahead, but please know that it has been the greatest honor of my professional life to care for you and your loved ones. I hope that, above all, I have provided comfort, trust, and support when you needed it most.

With deep appreciation and best wishes for your continued health,

Philip G. Huff, MD
